

*Mac*  
**Allevo<sup>DR</sup>**  
Naproxen + Esomeprazole

## *The best match between safety and efficacy*

**Allevo** is a multi-layer, delayed-release tablet combining an enteric-coated naproxen core and an immediate-release esomeprazole magnesium layer surrounding the core.

**Allevo combines effective arthritis pain relief with stomach protection in one pill.**

### **OUTER LAYER**

#### **ESOMEPRAZOLE MAGNESIUM**

A proton pump inhibitor (PPI) that reduces the risk of developing stomach (gastric) ulcers in people who are at risk of developing gastric ulcers with NSAIDs

A long acting powerful NSAID used to treat pain, menstrual cramps, inflammatory diseases such as rheumatoid arthritis, gout and fever.

### **INNER LAYER**

#### **NAPROXEN**

# Mac Allevo<sup>DR</sup>

Naproxen + Esomeprazole

Esomeprazole is released first in the stomach, prior to the dissolution of naproxen in the small intestine. The enteric coating prevents naproxen release at pH levels below 5.5.

Mean plasma concentrations of naproxen and esomeprazole following single-dose administration of Allevo (500 mg / 20 mg)
